Professional Summary

Salesforce Certified Developer with **7+ years** of experience translating business challenges into scalable Salesforce solutions across Sales Cloud, Service Cloud, and Experience Cloud. Proven track record delivering application development, AppExchange products, integrations, automation, platform modernization, and enterprise-scale implementations that align technology with business goals. Skilled at partnering with stakeholders to understand the "why" behind requirements and designing solutions that drive efficiency, adoption, and long-term business value. Driven by curiosity and continuous learning, currently expanding expertise into Agentforce and Data Cloud to bring AI-driven automation and unified customer data into enterprise Salesforce solutions.

Technical Skills

- **Salesforce Platform:** Sales Cloud, Service Cloud, Experience Cloud, Custom Applications
- **AI & Emerging Tech:** Agentforce, Data Cloud
- **Core Development:** Lightning Web Components (LWC), Aura Components, Visualforce, Apex Classes, Apex Triggers, Asynchronous Apex, SOQL/SOSL
- **Automation:** Flow, Approval Processes, Process Builder, Workflows, Platform Events, Scheduled Jobs
- **Security & Data Architecture:** Profiles & Permission Sets, Role Hierarchy, Sharing Rules, Field-Level Security, Data Modeling, Record-Level Access
- **Integration & APIs:** REST API Integration, SOAP Web Services, Apex Callouts, Named Credentials, External Services, JSON/XML Parsing, Third-Party System Integrations
- **DevOps & Web Technologies:** Salesforce DX (SFDX), Git/GitLab, GitHub, ANT Migration Tool, Change Sets, Copado, Flosun, CI/CD Deployments, HTML, CSS, JavaScript, SLDS
- **Tools:** Visual Studio Code, Data Loader, Postman, Workbench, Jira, ServiceNow, MySQL

Professional Experience

Specialist Software Engineer

September 2024 – Present

LTM

Noida

- Designing and developing scalable enterprise solutions using Lightning Web Components (LWC), Apex, and Experience Cloud, with a focus on performance and long-term maintainability.
- Implementing secure integration patterns using REST/SOAP APIs, Named Credentials, and Platform Events to connect Salesforce with third-party systems.
- Leading automation initiatives through Record-Triggered Flows and Flow Orchestration.
- Ensuring optimized performance, security compliance, and seamless CI/CD deployments across environments.
- Currently expanding into Agentforce and Data Cloud, exploring AI-driven automation and unified customer data to push solution capability further.

Salesforce Developer

July 2019 – September 2024

Cloud Analogy

Noida

- Built scalable Lightning Web Components and custom Apex solutions for automation and integration use cases; configured Experience Cloud sites.
- Implemented complex Record-Triggered Flows, Approval Processes, and Platform Events to streamline business processes.
- Delivered enterprise-grade Salesforce solutions across Sales Cloud and Service Cloud, including asynchronous processing (Batch & Queueable Apex) to manage high-volume operations at scale.
- Designed data models and optimized SOQL queries for performance and scalability; delivered secure integrations with third-party systems.
- Maintained secure access control through Profiles, Permission Sets, Role Hierarchy, and Sharing Rules.

- Delivered 8+ enterprise projects spanning lead management, dealer management systems, loan origination platforms, and vendor management systems across Sales, Service and Experience Cloud.

Key Projects

KSR Honda Canada

Service Cloud, Experience Cloud

- Provided production support and enhancements for Service Cloud, including service request enhancement and incident resolution/management workflows.
- Delivered configuration and code-level enhancements across LWC components, Flows, Apex Classes, Apex Triggers, and Asynchronous Apex.
- Enhanced the Experience Cloud "MyGarage" customer-facing site to support ongoing service and support functionality.

Sales Hub – Customer Solution

Sales Cloud, Experience Cloud

- Set up an Experience Cloud site to enhance Field Sales executives' digital experience, integrating Bynder Digital Asset Management (BDAM) with Salesforce for centralized asset storage.
- Developed Lightning Web Components, Apex Classes, Apex Triggers, Batch Classes, Test Classes, and Wrapper Classes to handle complex data structures across the integration.
- Managed Profiles, Field-Level Security, Sharing Rules, Email Templates, and Permission Sets; deployed via Change Sets.

Dealer Management System (DMS)

Service Cloud, Experience Cloud

- Designed end-to-end vehicle service request workflow from registration to delivery, including inventory, technician, and labor management.
- Built multi-screen Job Card and Job Card Wizard components; managed data model, security settings, and deployment via Change Sets.

Loan Operating Systems (Tractor & Nano Business)

Sales Cloud, Experience Cloud

- Developed end-to-end loan origination systems from lead to payment, including CIBIL score, CRIF, and risk/fraud control verification components.
- Built multiple LWC components for risk and quality checks; managed security configuration and deployment via GitLab.

Customer Engagement Platform

Sales Cloud, Experience Cloud

- Built lead management system integrating third-party database records in real time via middleware; developed LWC, Apex Classes, Triggers, Batch Classes, and Wrapper Classes to handle complex data structures.
- Configured public Experience Cloud site for customer survey collection; managed Field-Level Security, Sharing Rules, and Permission Sets.

Vendor Management System

Sales Cloud, Experience Cloud

- Streamlined vendor onboarding process with Aura Lightning Components to manage vendor records, invoices, and time sheets, with automated email approval routing to owners.
- Configured Experience Cloud site to support the end-to-end vendor onboarding workflow; deployed via Change Sets.

Certifications

- Salesforce Certified Platform Developer II
- Salesforce Certified Platform Developer I
- Salesforce Certified Platform Administrator
- Salesforce Certified Platform Foundations
- Salesforce Certified AI Associate

Education

Master of Computer Applications (MCA)

2019

Guru Gobind Singh Indraprastha University, New Delhi

Bachelor of Computer Applications (BCA)

2015

Magadh University, Bodh Gaya
